WHY WE MADE THIS GAME

- ▼ First time anglers will love the authentic experience we've provided. Anyone who loves fishing already will feel right at home playing Fish 'n' Nudge.
- ▼ We set out to create a game that would capture the feeling of being on a fishing boat, so players can have an exciting taste of the ocean without having to go get wet.
- ▼ A fishing game can provide players with a similar challenge to the real thing, especially in the satisfaction of finally catching that elusive fish.
- ▼ Fish 'n' Nudge is our first game with an instant prize collector mechanic, which will be familiar to many regular players. We have added our twist to this mechanic with an additional way to collect the instant prizes in the form of the Net Symbol.
- ▼ We focused on creating a relaxing atmosphere to give players a calm break from the hustle and bustle of life.
